

Bridges Mentorship Mentor Search

The REACH Bridges Mentorship Program pairs high school juniors and seniors with adult undergraduate and graduate mentors for career-focused mentoring support. The Mentorship program is broken into three (3) sectors of healthcare - medicine, nursing, and allied health. Mentors support mentees with guidance on specialty knowledge, healthcare knowledge, college long-term planning, summer opportunities, research opportunities, early career advising, and community building.

We are currently seeking mentors/bigs for the 2023-2024 CPS School Year. The REACH Mentoring program operates from October 30, 2023 - April 13, 2024.

Bridges to
Nursing

Bridges to
Medicine

Bridges to
Allied Health
